

EARTH
MINERAL SURFACES

THE NEXT EVOLUTION OF LUXURY SLAB SURFACES

When design draws from nature, it becomes more than functional - it becomes a celebration of the world's boundless beauty.

A harmonious blend of organic forms, colors, textures and natural elements transformed by cutting-edge engineering to create a material that is as durable as it is stunning.

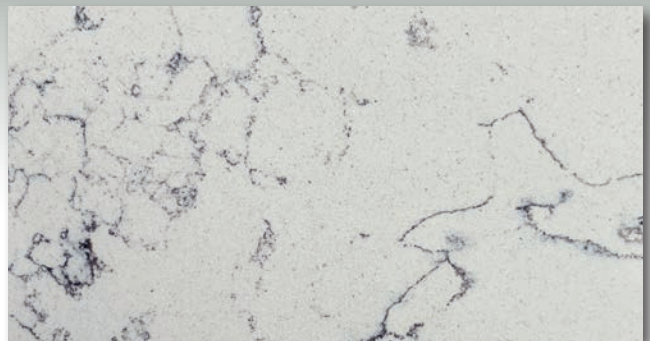

Designed with safety and sustainability in mind, our proprietary formula, Synergy+, reduces crystalline silica to less than 5%.

Ideal for a wide range of applications, from kitchen countertops to bathroom vanities and beyond, styles are endless whether you're designing a modern masterpiece or classic retreat.

Earth Mineral Surfaces prove that elegance and sustainability can coexist, creating surfaces that are as kind to the earth as they are to your space.
